ENGINEERED AIRCRAFT FILTRATION

◀ WASH FLOW FILTERS

Used primarily in throttle control systems and designed to "self clean."

▲ ELECTRICAL AND MECHANICAL INDICATORS

Used in many applications, Falls indicators have many years of successful operation and engineering built in.

◀ IN-LINE FILTRATION

Made from many alloys, Falls' in-line filters lead the industry in design and performance.

▶ REPLACEABLE ELEMENTS

We manufacture thousands of cleanable and non-cleanable elements, designed from only the highest quality materials. Efficiencies as low as 1 micron.

◀ STRAINERS

Used in many applications from fuel to lube oil. falls Filtration leads the industry in design and quality.

▶ THERMAL BYPASS VALVES

Designed to allow cold viscous fluids to bypass filter, during engine start-up.

◀ FUEL FILTRATION

Falls has an exceptional line of fuel filtration products designed to your specifications.

▼ FUEL FILTRATION

Falls has an exceptional line of fuel filtration products designed to your specifications.

 **Falls Filtration Technologies, Inc**
"Manufacturer of Airmaze Products"

ENGINEERED AIRCRAFT FILTRATION

◀ BOLT ON ASSEMBLIES

Used in many applications. Falls Filtration leads the industry in design and quality.

ENGINE AIR INTAKE ▶

Used in many applications. Falls Filtration leads the industry in design and quality.
