FUELSAFE

Fuel Line Gas Filter

ENGINEERED FILTRATION TECHNOLOGIES

FUELSAFE

Fuel Line Gas Filter

Protect engines from harmful moisture and corrosion particles.

Corrosion wear particles and moisture that builds up in engine fuel supply lines will cause premature wear on engine valves, piston heads, and seals. This results in poor performance, reduced efficiency and costly maintenance downtime. The PECO FUELSAFE, featuring PEACH™ element technology, removes moisture and wear particles such as pipe scale, rust, and dirt. With a rugged cast head design and unibody shell, the FUELSAFE vessel is designed for years of trouble-free service. The FUELSAFE also provides design versatility. It is compatible for use with natural gas, propane, methane and diesel.
